GATEBOX: PANEL USER MANUAL
By Shafeeq Rabbani

Green indicates Smartphone is connected to panel.

Yellow indicates panel is locked out.

Red indicates no smartphone is connected to panel.

This button turns off the Bluetooth device. This feature is useful in the situation where the user is going on a vacation and does not want the GateBox panel's Bluetooth login feature running during this time.

DISABLE BLUETOOTH

GARAGE STOP

GARAGE OPEN

GARAGE CLOSE

LIGHTS ON/OFF

BLUETOOTH UNLOCK

Stop the Garage Door

Open the Garage Door

Close the Garage Door

Turn the lights On/Off

After 3 incorrect password attempts, the user is locked-out. The only way to reactivate wireless operation is by manually pressing the Bluetooth Unlock button.
